TRUCKS YOU CAN RELY ON

F SERIES

MEDIUM TRUCKS

**THE VERSATILE
OPTION**

THE KEY TO YOUR BUSINESS

As New Zealand's favourite truck our customers expect Isuzu to offer industry leading products that meet the demanding requirements of the NZ owner. The Isuzu F Series is designed by New Zealanders for New Zealanders and delivers to your business the most durable, comfortable and economical vehicle possible. If you value quality, an excellent return on investment, low running costs, high resale and a driving experience that won't leave you exhausted at the end of the day then the Isuzu F Series is the truck for you.

CUSTOMER SUPPORT

No matter where you take your Isuzu F Series in NZ we've got you covered with 20+ Service Outlets and a massive range of parts off the shelf.

CAB/COMFORT

Isuzu F Series cabs offer a great place to work and won't leave you rubbing your back at the end of the day.

SAFETY

Isuzu F Series feature some of the most technologically advanced active and passive safety systems.

ENGINE

Isuzu F Series utilise the exceptionally durable 4HK1, 6HK1 and 6UZ1 engines offering great output and high torque to get you on the move.

TRANSMISSIONS

Isuzu F Series offers options including Manual, full Auto and AMT (Automated Manual).

EMISSIONS

Isuzu F Series offer Euro V low emission engines. We love NZ clean and green so let's leave it that way for the next generation.

AXLES

Choose Isuzu F Series for robust and durable axles.

TRUCKLOADS OF FEATURES

COMFORT

Isuzu F Series are renowned for taking the basic requirements of a durable workhorse and making it more than just the sum of its parts. Here are some of the standard and optional features you can expect to enjoy in an Isuzu F Series:

- ISRI 6860 air suspension drivers seat with pneumatic lumbar support, height, rake, and auto weight adjustment. Front passenger's is an adjustable bucket seat as well as a centre seat with folding back.
- F Series trucks come standard with Isuzu DIR6200 Media Centre including a 6.2" multi colour touchscreen, MP3 connection, Bluetooth hands free, Media Ripping with 512MB capacity to store all your music and optional 4 x reverse camera, rear park sensors, tyre pressure monitoring system, GPS sat nav and steering wheel mounted remote control unit.
- Integrated air conditioning with 4 speed fan and electric windows.
- Lined cab interior with padded roof lining and vinyl floor covering to reduce in cab noise for a comfortable days work.
- Centre console box with storage tray. Fold down storage tray behind centre seat backrest, door mounted storage pockets as well as left hand glove box.
- Twin cup holders and 24v power outlet.
- Steel suspension as well as option of air suspension on many models.
- Interior document light.
- Height and reach adjustable steering column with soft feel steering wheel.
- F Series cabs are exceptionally quiet from the inside with internal noise level of only 70db(A) @ 80km/ph.

At the end of the day the Isuzu F Series is a durable, cost effective and robust workhorse. Isuzu F Series trucks are designed to offer you the comforts of a car and an exceptional driving experience that won't leave you rubbing your lower back when you step out of the cab after a long day on the road.

SAFETY

When it comes to protecting the most valuable load of all including you, your people and those who share the road, you'll find that Isuzu F Series trucks lead the way with both active and passive safety systems. Here are some of the safety features you will receive with your Isuzu F Series:

- Driver and passenger SRS airbag.
- Three point seatbelts in all outboard seating, drivers fitted with pretensioner.
- Cabs are ECER29 crash test certified – meeting the most stringent European standards for driver safety.
- Anti Lock Braking (ABS) on all models.
- Traction Control/Anti Slip Regulator (ASR) on some models which helps prevent the drive wheels from spinning and improves motion stability on slippery surfaces. Automatically operational upon engine start.
- Hill Start Aid (HSA) on most models which when activated holds pressure on the service brake even when the brake pedal is released to stop 'roll back'.
- Electronic Brake Force Distribution (EBD) on some models which uses the ABS to distribute the braking force ideally between the front and rear wheels in order to compensate for changes in load conditions and prevent rear wheel lock.
- Air controlled exhaust brake.
- Side intrusion bars to reduce passenger injury in a side impact accident.
- Dual circuit air over hydraulic front and rear auto adjusting drum brakes on FR and FS models. Meritor "Q Plus" dual circuit full air "S Cam" front and rear drum brakes with auto slack adjusters on FT, FYH, FYJ and FV models.

EASE OF OPERATION

When designing the current Isuzu F Series range, Isuzu considered the needs and wants of the owner and driver to make a medium truck that was as pleasant to operate as a car including standard/optional features.

- Depending on which model you require Isuzu offers many transmission options including:
- Six speed Manual/Automated Manual Transmission (AMT)/9 speed Manual or Allison Auto. The AMT option is effectively a manual gearbox which is hydraulically operated via fluid coupling to the electronic shifter which can be used as either a 'tiptronic' style manual or full auto.
 - AMT delivers comparable fuel economy to a manual. Cruise control is standard on AMT models.
 - Multi display on AMT and Auto models allows interrogation of fuel consumption, over-speed warning, engine hours, service intervals, DPD bar chart** and voltmeter.
 - Large cab-mounted mirrors for excellent vision.
 - Hill Start Aid (HSA) for easy take off on an incline and no 'roll back'.
 - Keyless entry with engine immobilizer.
 - Height/reach adjustable steering column with soft feel steering wheel.
 - Power assisted steering.

**DPD bar chart not required on DOC models

GOING THE DISTANCE FOR YOU

Isuzu F Series trucks are the most durable and versatile medium truck on the NZ market today and offer you many options so that the vehicle you choose will last the distance and suit your requirements.

PERFORMANCE AND VERSATILITY

- Engines – Isuzu F Series trucks are offered with the remarkably durable Isuzu 4HK1 through 6HK1 and 6UZ1 engines which deliver between 210 - 350hp.
- By using Diesel Oxidation Catalyst (DOC) and latest Diesel Particulate Diffuser (DPD), Isuzu F Series trucks are Euro V Exhaust Emission compliant.*
- Electronically controlled variable nozzle turbo charger with air to air intercooler.
- Isuzu F Series front axles are Isuzu's durable FO series reverse Elliot I beam or Meritor FG series, and rear are Isuzu RO series full floating banjo type or Meritor RT series.
- Isuzu F Series chassis are designed to be durable and easy to fit any body type to.
- Wheelbase options on F Series from 4,250mm – 6,500mm allow you to choose the most appropriate body to suit your application.
- Where the application or terrain demands more traction Isuzu can offer 4x4 options in the FSS and FTS range.
- Day cab, cab and a half, wide, extra wide and crew cab options are available.
- Isuzu F Series trucks offer you Gross Vehicle Mass options from 10,700kg all the way up to 24,000kg and Gross Combination Mass up to 42,500kg.

*FRR600 | FSR700 | FTR750 | FTS800 | FYH & FYJ350 on all other models DPD.

WARRANTY AND AFTERSALES

Isuzu F Series trucks are built to be the most durable and reliable trucks in the world. However, as with everything mechanical, Isuzu trucks will at some time require servicing, repairs and parts. Isuzu in association with Holden New Zealand offers a superior parts facility to ensure your Isuzu stays on the road as much as possible. Isuzu New Zealand also offer an excellent warranty on all F Series to give you peace of mind and reduce your exposure to unexpected costs.

- Isuzu F Series Isuzu trucks receive a 36 month or 150,000km Powertrain warranty on FR*, FS*, FT* models or 36 month or 200,000km Powertrain warranty on FV* and FY* models.
- Isuzu parts are distributed across NZ by CEVA Logistics. There are over 10,000 lines with 22,000 part numbers worth approx \$3.5m at Isuzu's parts warehouse. These parts can be delivered to all 14 of our Master Truck Dealers as standard delivery, or if VOR (Vehicle Off the Road) Isuzu parts can express ship them.
- Isuzu New Zealand has a Service Training Centre in Auckland which is used year round to continually improve the knowledge and skill base of Isuzu truck mechanics delivering approximately 600 days of training a year on Isuzu engines, transmissions, electrical systems and more.
- Each year Isuzu New Zealand finds the two top mechanics in the dealer network and puts them through their paces in a week long training programme before they go to Japan to compete in a global competition to find the best team of Isuzu mechanics in the world. In November 2012 Isuzu New Zealand beat 26 other countries to win the competition and be crowned the best International Isuzu Technician Team in the world!
