Includes **bonus** stick on spotter mirror.

ISUZU BVP.

SO WHY SHOULD YOU PURCHASE BVP BRAKE SHOES?

No one knows Isuzu products better than Isuzu and with the direct advantage of original engineering and design specifications at hand, the development of BVP product can deliver better value for money for your older Isuzu truck.

Most genuine items have been priced to compete effectively against aftermarket products while some segments of the market are more price sensitive than others. Isuzu has stepped outside of the box and found an avenue to produce competitive aftermarket product based on original designs and specifications.

The BVP brake shoe range consists of bonded linings on disposable shoes. The use of bonded linings significantly reduces the cost and saves on labour down time compared with riveted linings.

ISUZU DIESEL INJECTOR CLEANER.

1L BOTTLE
\$59.00

92956571

350ml BOTTLE
\$29.00

92956570

Isuzu diesel injector cleaner is a total injector treatment for diesel powered passenger cars and trucks. It's designed to remove conventional nozzle deposits as well as new internal diesel injector deposits. Isuzu diesel injector cleaner works in mineral diesel and biodiesel blends. One tank full of fuel treated with Isuzu diesel injector cleaner can help to:

- Restore lost power by removing harmful deposits from fouled injectors.
- Relieve cold start problems.
- Minimise harmful exhaust emissions.
- Reduce engine noise.
- Control injector deposits in biodiesel blends.

IMPORTANT INFORMATION

- Only add the Isuzu Diesel Injector Cleaner to a full tank of clean Diesel fuel.
- The use of Biodiesel and/or poor quality fuel will increase the required frequency of use of this product.
- Do not use more than the required dose or exceed the recommended frequency, over dosing can cause damage to the fuel system.
- The use of Premium Diesel fuels will eliminate or reduce the need to use this product.
