

**ISUZU**  
TRUCKS YOU CAN RELY ON

# N SERIES LIGHT TRUCKS

**THE STRAIGHT  
FORWARD CHOICE**

# THE KEY TO YOUR BUSINESS

As New Zealand's favourite truck our customers expect Isuzu to offer industry leading products that meet the demanding requirements of the NZ owner. The Isuzu N Series is designed by New Zealanders for New Zealanders and delivers to your business the most durable, comfortable and economical vehicle possible. If you value quality, an excellent return on investment, low running costs, high resale and a driving experience that won't leave you exhausted at the end of the day then the Isuzu N Series is the truck for you.

## CUSTOMER SUPPORT

No matter where you take your Isuzu N Series in NZ we've got you covered with 20+ Service Outlets and a massive range of parts off the shelf.

## CAB/COMFORT

Isuzu N Series cabs offer a great place to work and won't leave you rubbing your back at the end of the day.

## SAFETY

Isuzu N Series feature some of the most technologically advanced active and passive safety systems.

## AXLES

Choose Isuzu N Series for robust and durable axles.

## EMISSIONS

Isuzu N Series offer Euro V low emission engines. We love NZ clean and green so lets leave it that way for the next generation.

## TRANSMISSION

Isuzu N Series offers two options including full Manual and AMT (Automated Manual).

## ENGINE

Isuzu N Series utilise the exceptionally durable 4JJ1 and 4HK1 engines offering great output and high torque to get you on the move.

# TRUCKLOADS OF FEATURES

At the end of the day the Isuzu N Series is a durable, cost effective and robust workhorse. Isuzu N Series trucks are designed to offer you the comforts of a car and an exceptional driving experience that won't leave you rubbing your lower back when you step out of the cab after a long day on the road.

## COMFORT & TECHNOLOGY

Isuzu N Series are renowned for taking the basic requirements of a durable workhorse and making it more than just the sum of its parts. Here are some of the standard and optional features you can expect to enjoy in Isuzu N Series:

- Contoured adjustable drivers bucket seat and passenger bench seat.
- Drivers suspension seat on all models, except crew cabin models.
- Liquid filled cab mounts on single cab and rubber on crew cab to reduce in cab vibration.
- N Series trucks come standard with Isuzu LM18I 6.2 inch touch screen Media Centre.
- Ultimate cab infotainment system at your fingertips. Navigate through the simple menu to play your favorite songs, digital station, or even internet radio.
- Hands-free Bluetooth is standard with steering wheel mounted audio controls.
- Optional tyre-pressure monitoring.
- The connected truck. Optional Telematics Fleet Management System (I-Path) continuously shares and records data in real time to increase safety, productivity and reduce downtime.
- Left / right overhead and door mounted storage pockets as well.
- Twin cup holders and 24v power outlet.
- Interior document light.
- Height and reach adjustable steering column with soft feel steering wheel.
- N Series cabs are exceptionally quiet from the inside with internal noise level of only 70db(A) @80km/ph.

## SAFETY & TECHNOLOGY

When it comes to protecting the most valuable load of all including you, your people and those who share the road, you'll find that Isuzu N Series trucks lead the way with both active and passive safety systems. Here are some of the safety features you will receive with your Isuzu N Series:

- ECE R29 crash test compliant cab.
- Driver and passenger SRS airbag.
- Side intrusion bars.
- NPR & NQR models feature front & rear disc brakes. NLR models feature front disc & rear drum brakes.
- Anti Lock Braking (ABS).
- Traction Control/Anti Slip Regulator (ASR) standard, except 4x4 models.
- Hill Start Aid (HSA) on most models.
- Electronic Brake Force Distribution (EBD) using ABS to distribute the braking force ideally between the front and rear wheels to compensate for changes in load conditions.
- Brake Power Assist for NPR & NQR models above 7.5T GVM that electronically monitors the brake system to optimise braking performance in varying conditions.
- Vacuum controlled exhaust brake.
- Integrated speed limiting available 70-110kmph, (except for NLR).
- Optional: Reverse cameras that support up to five camera inputs. One digital camera with infra red and rear microphone input active when reversing, up to four analogue cameras.
- Optional: Advanced Driver Assistance System, (ADAS). with lane departure warning, forward collision warning and pedestrian collision alerts.

## EASE OF OPERATION

When designing the current Isuzu N Series range, Isuzu considered the needs and wants of the owner and driver to make a light truck that was as pleasant to operate as a car including standard and optional features:

- Five & six speed manual synchro-mesh or six speed Automated Manual Transmission (AMT) option on all models (except 4x4).
- AMT transmission offers a manual gearbox which is hydraulically operated via fluid coupling to the gear shifter in a 'Tiptronic' style or can be used as a traditional auto.
- AMT delivers comparable fuel economy to a manual. Cruise control is standard on AMT models.
- AMT models have a kick-down function to increase responsiveness for on-demand downshift gear changes, (except NLR models).
- Multi-display on AMT models allows fuel consumption display, over-speed warning, engine hours, service intervals. DPD bar chart and voltmeter included for NLR models.
- Large cab-mounted mirrors for excellent vision.
- Hill Start Aid (HSA) for easy take off on an incline and no 'roll back', (except AMT models).
- Key-less entry and engine immobilizer.
- Height/reach adjustable steering column with soft feel steering wheel.
- Power assisted steering.

# GOING THE DISTANCE FOR YOU

Isuzu N Series trucks are the most durable and versatile light truck on the NZ market today and offer you many options so that the vehicle you choose will last the distance and suit your requirements.

## WARRANTY AND AFTERSALES

Isuzu N Series trucks are designed to be the most durable and reliable truck in NZ. However, as with everything mechanical, Isuzu trucks will at some time require servicing, repairs and parts. Isuzu in association with Holden New Zealand offers a superior parts facility to ensure your Isuzu stays on the road as much as possible. Isuzu New Zealand also offer an excellent warranty on all N Series to give you peace of mind and reduce your exposure to unexpected costs.

- All Isuzu N Series receive a 36 month or 100,000km vehicle warranty.
- Isuzu New Zealand has a Service Training Centre in Auckland which is used year round to continually improve the knowledge and skill base of Isuzu truck technicians.
- Isuzu parts are distributed across NZ by our logistics provider. There are over 16,000 lines with 35,000 part numbers worth approx \$3.5m at Isuzu's parts warehouse. These parts can be delivered to all Truck Dealers as standard delivery, or if VOR (Vehicle Off the Road) Isuzu parts can express ship them.
- Each year two Isuzu technicians qualify to go to Japan to compete in a global competition to find the best team of Isuzu technicians in the world.

## PERFORMANCE AND VERSATILITY

- Engines – Isuzu N Series trucks are offered with the remarkably durable Isuzu 4JJ1 through 4HK1 engines, in three ratings.
- 110kW (150hp), 114kW (155hp), 140kW (188hp).
- Isuzu N Series trucks offer you Gross Vehicle Mass (GVM) options from 5,500kg up to 8,700kg and Gross Combination Mass (GCM) options up to 12,200kg.
- Exhaust emissions are managed by maintenance free Diesel Oxidation Catalyst (DOC) for NPR & NQR models. NLR models include the latest Diesel Particulate Diffuser (DPD). All N-Series trucks are Euro V Exhaust Emission compliant.
- Variable Geometry System Turbo Charger (VGS).
- Transmissions can be 5 & 6-speed manual or 6-speed AMT, depending on model.
- N Series front axles are Isuzu's durable FO31 reverse Elliot I beam with 3,100kg capacity and rear are R066 full floating banjo type with 6,600kg capacity (except NLR).
- Isuzu N Series chassis are designed to be durable and easy to fit any body type to.
- Wheelbase options on N Series from 2,490mm – 4,475mm allow you to choose the most appropriate body to suit your application.
- Where the application or terrain demands more traction Isuzu can offer 4x4 options in the NPS range.
- Narrow (2x) or wide cab (3x) options.
- When the rest of the crew need a lift, choose an Isuzu crew cab model which adds four more seating positions with seatbelts.
- Isuzu Ready-To-Go Single & crewcab Tipper models are manufactured in Japan with all-steel ShinMaywa bodies.
- Over 10 tipper models ranging from 5,500Kg - 8,700Kg GVM all backed by the same 3-year 100,000km warranty.

# THE NUTS & BOLTS
